ABOUT

Jeremy has been working in the excavation industry for over 10 years. He is skilled on many pieces of equipment including the excavator, backhoe, dozer, skid steer and many others. Jeremy has been the onsite supervisor for many large projects with several complex aspects. He has the ability to make decisions as conditions change and can work well with project inspectors and supervisors. Jeremy enjoys working in the outdoors and takes pride in performing quality work and delivering a project on time and under budget.
